

Description and Rationale

Title

***Design*, magazine published by Builders Publications of India**

Project Description*

This proposal is for the microfilming of the earliest 12 issues of *Design*, published in India from 1957-1967. CRL has holdings beginning with volume 13 (1969). Also for microfilming of volume 15, number 2 and volume 21, number 10 to fill gaps in CRL's collection.

Reasons for Consideration*

The study of modern architecture and design is a growing trend in History that is only now growing in relation to South Asia. After decades of Western studies on ancient and Mughal architecture, this trend toward the study of modern and secular structures is a welcome new addition. *Design*, a magazine published since the 1950s, is one of only a handful of serial publications on the topic produced during this early period.

While some later issues of *Design* are more widely held, these earliest issues appear to be relatively scarce. CRL does have holdings of the later volumes, but is missing the first twelve and has a couple of small gaps. The proposal would round out and complete CRL's run of *Design*, making the full run accessible to CRL members.

Source and Holdings

[Provide a structured table of holdings and their sources. Gap information can also be highlighted in dedicated rows. Use a separate table for each title if the proposal details multiple titles.]

Location	Format	Holdings/Range	Notes
[Institution and holding location]	[Source format]	[Holding statement]	[Condition comments, etc.]
University of Illinois Main Stacks	Bound volumes	Vol. 6-11,21	
Michigan State University	Bound volumes	vol. 2 issues 5, 9-12; vol. 3-5; vol. 6 issues 1-5; vol. 15 issue 2	

Source and Holdings Notes

The University of Illinois has bound volumes of Design magazine for vols. 6-11 and volume 21 issue 10. Volume 6 seems to be missing issues 1-5. Volume 11 has some mild tearing along binding of inner front cover and seems slightly more fragile/brittle than other volumes. All other volumes appear to be complete and in good condition. All volumes are bound individually except for Vol. 7 and 8 which are bound together.

Michigan State University has bound copies of vol. 2 issues 5, 9-12, vol. 3-5, vol. 6 issues 1-5, and vol. 15 issue 2. Some issues, but not all, appear to be missing pages between front matter and table of contents (see issues listed in the 30-page range). All volumes are in good condition.
