

Description and Rationale

Title

Late Ottoman and Early Republican Diplomatic Treatises and State Publications

Project Description*

NYU has a collection of 31 diplomatic treatises, commission reports and state publications involving the Ottoman and early Republican Turkish states from 1870 to 1924. The project will digitize the treatises and reports and make them available as an OA collection.

The treatises shed light on the diplomatic relations of the Ottoman and the early Republican Turkish states with Iran and several European and Latin American states.

The treatises have been inventoried but not cataloged yet.

Reasons for Consideration*

The vast majority of these treatises are rare and not held in any library in North America. To the extent that they are available in libraries in Europe and Turkey, they have not been digitized.

Authors

The treatises are state documents issued by the Ottoman and the early Republican Turkish states.

Publishers

The treatises are state documents issued by the Ottoman and the early Republican Turkish states.

Source and Holdings

Location	Format	Holdings/Range	Notes
NYU	Printed state documents		Some are brittle. May have to be digitized at NYU.

Source and Holdings Notes

Physical Details

The page count is 1055 + 5 plates.

Existing Reformatted Materials

None known.

Intellectual Property Considerations

The treatises and documents should be in the public domains, so the collection can be open access.
